Double cabin **Antares**
Double cabin **Vega**
Dining/living area
Galley
Bar
Captain's cabin **Shaula**
Crew cabin **Rigel**

DRESSING ON BOARD

Weather conditions during navigation generally are fairly with slow winds. Occasionally, we may encounter thunderstorms that can cause decreased temperatures, increasing winds and also showers.

And so, clothing must be adapted to these variable conditions.

Dressing suggestion

- swim wear,
- shorts,
- T-shirts – Polo shirts
- Felt jackets – Rain jackets
- Long pants
- Long sleeved shirts
- Sweaters – Pullovers
- Wind breaker
- Hats & Caps

On board 3 sets of Rain jackets and boots for bad weather conditions.

Don't forget your sunglasses !

BAGGAGE

We recommend foldable baggage, no trolleys or hard-covered luggage

SHOES ON BOARD

No shoes are permitted on board.

Only under bad rainy conditions rubber soled shoes may be permitted in order to have a good grip on deck and floors in navigation.

USE OF BATHROOM

Bathrooms on board do not function like a home bathroom on land. The disposal process does not discard directly into the sea but through an internal circuit, called grey and black boxes. These circuits are extremely delicate and don't work by gravity, but by electric pumps.

To use the toilet accurately, one must pay maximum attention to avoid damage that can void functionality and security.

We must always conserve water on board.

WC/Toilet usage: You must press the first button "BEFORE USE" to fill the toilet bowl with water. Then the second button "AFTER USE" to flush the waste.

ATTENTION: Do not throw toilet paper or any kind of tissue paper or tampons into the toilet bowl.

There will be a waste paper bin in the vicinity of the bathroom.

If in any doubt, please call one of the crew.

WATER CONSUMPTION

Shower and faucets function exactly like at home, but we must keep in mind that water on board is not an unlimited resource, it can sometimes be difficult to refill the water tanks in port and the water maker can only be used in open seas exclusively.

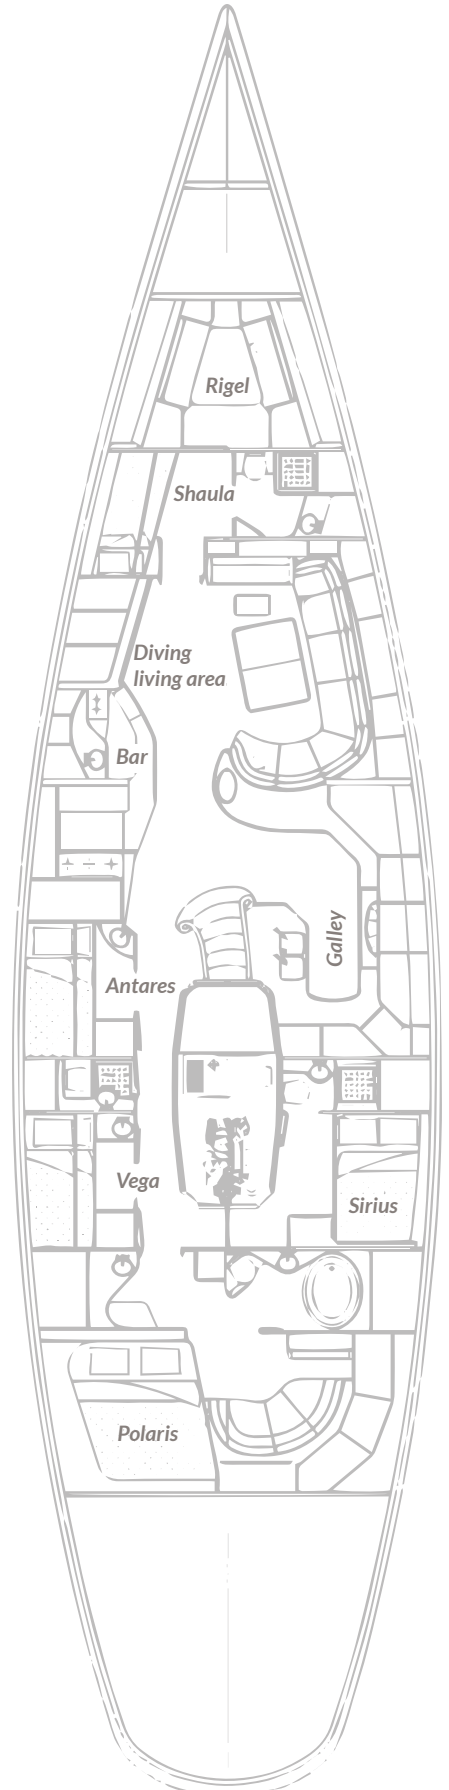

CREW DUTIES

The Captain has the highest level of authority on board .He/She has the responsibility of the yacht and the security of all crew and guests.

The First Officer: the second responsible and in command.
